Subject: EPA Water Quality Sampling - Consent for Access
Access Request Letter and Consent for Access Form - Dugi 04222015.pdf

Hi Mr. Dugi,

I am writing in regards to EPA's planned sampling that will be conducted near Silverton Colorado in 2015. We have identified one of our sampling locations is located on a mining claim that you own, Esther Allen 8801A. I left a voicemail message with you earlier today about this request. I have also send the access request via US mail to your address listed with the San Juan County Assessor's office. I have also attached the Consent for Access form to this email. If you are willing to grant us access to this location, please sign the attached form and send back to me. Please feel free to contact me at any time with any questions you may have.

Thank you,

Liz Fagen
